About

I am an emerging frontend web developer with an interest in human and computer languages. My technical tools include JavaScript, React, HTML, CSS. Currently, I follow full-stack development curriculum on online learning platforms and build freelance projects, plus volunteering part-time for a local charity. I dedicate my free time to building games with Java while teaching myself software design patterns.

Work Experience

Sep 2019, Feb 2020	Freelance Interpreter Premium Linguistic Services (York, England) Interpreted face-to-face conversations on scheduled appointments.
Mar 2015, May 2018	Sales Order Specialist Electrolux Professional (Turkey) Received, reviewed and processed orders from sales department.
Feb 2013, Feb 2015	Export Sales Assistant Inoksan (Turkey) Provided customer service while supporting my team with administrative duties.

Education

2019, 2021	freeCodeCamp Full Stack Web Development
2019, 2021	Java Programming Masterclass for Software Developers Course by Tim Buchalka
2006, 2010	Bachelor's degree, American Literature Hacettepe University (Turkey)
